

AusProTec™

SPECIALISED ELECTRICAL
EQUIPMENT

MAXI VISION

CAMERA SYSTEMS

FORKLIFT CAMERA SYSTEM

Forklift and operator safety is vital in the workplace!

The AusProTec™ Maxi Vision Camera systems offer forklift operators a new perspective on driving and operating their equipment. The camera systems are designed to enhance safety by improving the operator's vision when performing such tasks as lifting, transporting loads or reversing the forklift. The systems are suitable for use on small or large forklift trucks, battery or I/C models.

The AusProTec™ Maxi Vision range of colour LCD monitor and camera options are robust in design and are ideally suited to industrial equipment. Heavy duty casing and mounting options are also available to suit custom applications.

The camera system has been designed to suit forklifts and includes pulleys, heavy duty cabling, special mounting and fittings to enable reliable installation to most electrical and IC forklifts.

So look forward to a safer view on forklift safety whilst improving productivity!

FEATURES & BENEFITS

- Multiple camera options available
- Customised systems available on request
- Multivoltage applications
- Simple to use, reliable in operation and easy to maintain
- Compatible with small or large forklifts
- Clear vision whilst lifting, transporting loads and reversing
- Local supply and national support
- Industry proven reliability

Part No. 6660

Forklift camera system

Part No. 5790

Voltage regulator for electric forklifts

Maintaining clear vision day or night! Look forward to a safer view

Product training - on site installation
nationwide support network - custom solutions available
