

# MACHINE SPEED LIMITER DISPLAY

The AusProTec™ Machine Speed Display kit is designed to provide an accurate speedo reading for machines without an Original Equipment Manufactured (OEM) speedometer installed or drive line speed pickup point.

The kit consists of a speedo, which is installed onto the dash of the machine showing a speed range from 0-70 km/hr. The system detects the speed of the machine using a ground speed radar sensor which delivers true ground speed measurements for all types of machines.

## FEATURES & BENEFITS

- Informs operator of machine's speed
- Allows operator to drive within the designated speed limit

## APPLICATIONS

- Graders
- Scrapers
- Cable reelers
- Loaders
- And many more

## GROUND SPEED RADAR SPECIFICATIONS

- Views actual ground surface for accurate speed measurements
- Can be mounted to look forward or backward from machine
- Speed range: (0-70 km/hr)
- Sensor dimensions: 10cm (W) x 10cm (H) x 31.1cm (L)
- Sensor harness length: 3 metres
- Speedo diameter: 72mm
- System voltage: 24V

Part No. 9565

Vehicle speed display kit
