

MODULAR TELEREMOTE ASSEMBLY KIT

The **Control Master®** Modular Teleremote Assembly (MTA) kit is a dual channel TV monitoring system that allows the operator to have a clear and more precise vision of the machine's operations.

The MTA kit allows the operator to view both front and rear images of the machine, without switching screens. The MTA kit is easily portable in the event that the operator needs to relocate their Teleremote operations.

The MTA kit includes two 15" LCD monitors enclosed in a robust transit case. The MTA kit can be used as a stand alone unit or built into any type of Teleremote station application.

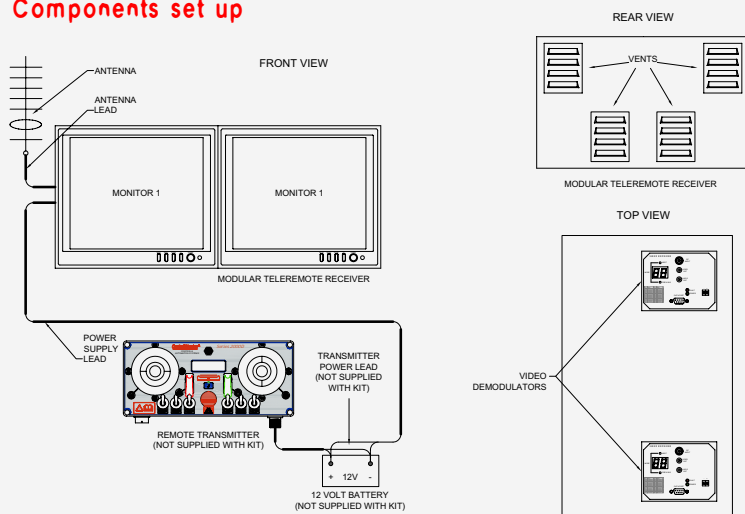

Part No. 4017

FEATURES & BENEFITS

- Portable Teleremote solution
- Flexible application
- (stand alone or as part of a personnel carrier or station set up)
- Robust enclosure

Components set up

Full Kit	
Part No. 4017	Modular Teleremote Assembly Kit
Components included in kit	
Part No. 8252	Modular Teleremote receiver with monitors
Part No. 5945	N male cable set 70m
Part No. 4150	Antenna dual frequency
Part No. 3209	Aerial mount Yagi
Part No. 4617	Aerial wall mount stand
Part No. 4618	Adaptor N Male to Male 90 degrees
Part No. 4619	Adaptor N Female to N Female
Part No. 8505	Tethering kit to suit 8252
Part No. 0788	Cable ties 8.6mm
