

LIGHT VEHICLE ELECTRONIC SPEED LIMITER

The **Muirhead®** Light Vehicle Electronic Speed Limiter is designed to maintain control of a vehicle's maximum speed by electronically interfacing into the vehicle's throttle system. With speed being a major factor in many vehicle accidents, the **Muirhead®** Light Vehicle Electronic Speed Limiter will control the vehicle's maximum speed to enable safe and productive operation at all times.

This software enables the user to set a vehicle's maximum speed to suit the application and the operating conditions. The system eliminates the need to lockout gears to try and reduce the overall speed of the vehicle.

FEATURES & BENEFITS:

- Increases workplace and road safety
- Reduces speed related injuries
- Reduces fuel, running and maintenance costs
- Extends vehicle service life
- Maintenance and trouble free speed limiting
- Secure speed programming

APPLICATIONS:

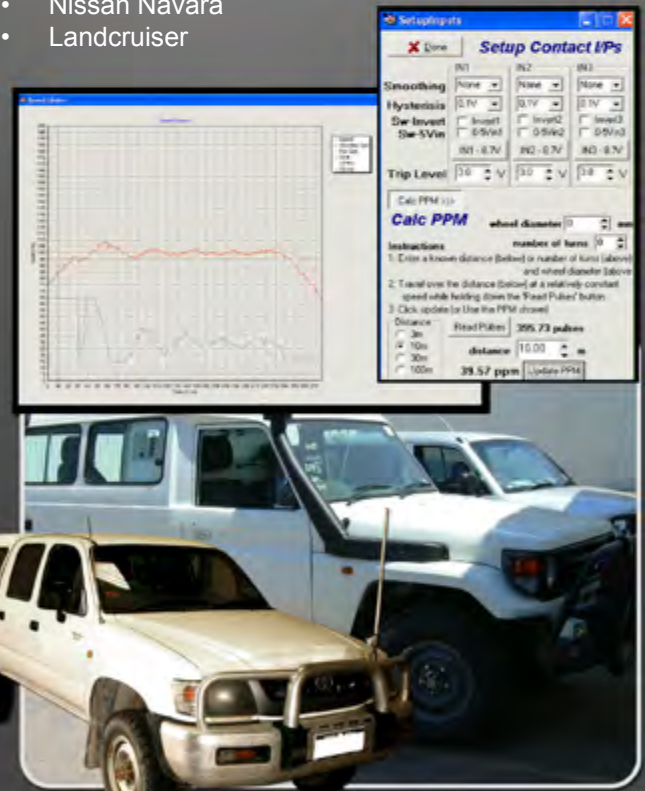

- All types of vehicles that have electronic throttle
- Speed limiter kits are customised to suit each vehicle application

Part No. 3018 Dual throttle speed limiter module
Part No. 5889 Speed limiter kit T/S Toyota landcruiser V8

Each speed limiter kit is custom built to suit the light vehicle application. Standard kits are available to suit:

- Hilux
- Nissan Navara
- Landcruiser

Test Equipment is also available to make calibration easier.
