

LIGHT VEHICLE ENGINE WARNING SYSTEMS

The **Muirhead®** Light Vehicle Engine Warning systems offer engine protection for your light commercial, off road mobile equipment by monitoring engine oil pressure, coolant temperature and coolant levels. The systems, by alerting the operator, reduces premature engine failure, damage and costly repairs.

The systems provide audible and visual warnings and incorporates additional outputs for return to idle or shutdown modes. Compact in design and easy to install.

UNIVERSAL WARNING SYSTEM
Single function multi voltage system.

FEATURES & BENEFITS

- Audible & visual warnings
- Australian made and tested
- Universal applications
- Multi voltage applications
- Tamper proof
- User friendly display
- Customised electronic circuitry
- Guards against engine failure
- Reduces costly engine repairs
- Easy diagnosis of engine problems
- Optional idle or shutdown function in the event of engine failure
- Reduces operator responsibility
