

PRE-START WARNING TIMERS

The **Muirhead®** Pre-start Warning timers are designed to warn personnel within the vicinity of a machine that the engine is about to start. The system interfaces directly into the machine's starter circuit, automatically triggering when the ignition switch is activated. The system can be set to sound for a pre-set time period before allowing the machine to start or linked to trigger the machine's horn, lights or any electronic warning device.

The **Muirhead®** Pre-start Warning timers are available with a variety of alarm fitments or can be custom built to suit the customer's needs.

FEATURES & BENEFITS:

- Pre-set audible timer
- Compatible with electrical warning devices
- Simple to install
- Maintenance free
- Improves workplace safety
- Pre-warns personnel to clear the machine area

Part No. 6337

Part No. 2625

Part No. 6337 Electronic timer with alarm & plug

Part No. 2625 Electronic timer with external alarm & lead

Part No. 8508

Part No. 8508 IP65 enclosed timer with alarm
