

# RAISED TRAY WARNING SYSTEMS

Drivers of large trucks inherently face hazardous conditions when operating near power lines, overpasses and underground portals. A truck with a raised tray under these surroundings can cause an enormous amount of damage to core operating facilities and endanger the lives of both the driver and personnel within the vicinity. It is therefore, extremely important that the truck operator is aware of which position their tray is in whilst they are driving.

The **Muirhead®** Raised Tray Warning systems can minimise these risks by alerting the operator and personnel within the area that the vehicle's tray is in a raised position. A system is also available which can limit the machine's transmission to first gear when the tray is raised, thereby avoiding high speed accidents.

## FEATURES & BENEFITS:

- Audible and visual alarms
- Adjustable tray height switching
- Standard, neutral input & transmission inhibitor kits are available
- Increases operator & workplace safety
- Enforces safe operating practices
- Reduces raised tray related collisions & damage

Part No. 8997 Standard raise tray warning kit

Part No. 2214 Tray kit with transmission inhibitor

Part No. 9122 Tray kit with neutral input

Manufactured by:

### PERTH

Unit 2-5/511 Abernethy Road  
Kewdale Western Australia 6105  
Ph: +61 8 9353 6577  
Fax: +61 8 9353 6578

### KALGOORLIE

24 Percy Road  
Kalgoorlie Western Australia 6430  
Ph: +61 8 9021 1600  
Fax: +61 8 9091 4927

### MT ISA

1A Ryan Road  
Mt Isa Queensland 4825  
Ph: +61 7 4749 0233  
Fax: +61 7 4749 0232

BRISBANE OFFICE: +61 7 3880 1231 MELBOURNE OFFICE: +61 3 9545 5859
