

# SMARTTRACK DATALINK SYSTEM

The **Muirhead®** SmarTrack DataLink system is an electronic licence, impact monitoring and impact logging system. The system is designed to manage driver ID, monitor machine usage and log machine impacts.

The **Muirhead®** SmarTrack DataLink system is a versatile, low cost data collection tool, which enables site supervisors to monitor and manage the performance and productivity of their forklift fleet with minimal fuss. The system electronically records critical impact data and machine operating information. The data can be downloaded via a master I-button key and transferred to a computer for more detailed analysis.

## FEATURES & BENEFITS

- Security and data logging system built into one
- Fast and easy data transfer via I-button key
- Supply voltage 12-24 Volt DC
- Capable of monitoring up to four input functions
- Protects machine against unauthorised use
- Logs critical machine data (machine usage and impacts)
- Low maintenance
- High reliability
- Universal application

**Part No. 7043****SmarTrack DataLink system**

Manufactured by:

**PERTH**

Unit 2-5/511 Abernethy Road  
Kewdale Western Australia 6105  
Ph: +61 8 9353 6577
