

SMARTRACK IMPACT MONITORING

MAKE AN IMPACT ON FORKLIFT SAFETY!

The **Muirhead®** SmarTrack Impact Monitoring controller has been designed to assist forklift users to manage forklift safety, by actively monitoring impact levels. The impact monitor alerts the operator and surrounding personnel when a critical impact occurs. The alert immediately reminds the operator of the danger an impact has to both operator and machine.

The **Muirhead®** SmarTrack Impact Monitoring controller has the ability to alert the operator and supervisor with both audible and visual warnings. Once an impact has been detected, all outputs will latch on and can only be reset via a supervisor's key.

Part No. 3847	SmarTrack Impact controller
Part No. 1723	Alarm
Part No. 4040	Blue Beacon
Part No. 6461	Key switch
Part No. 9476	Body no/contact
Part No. 3839	Loom

FEATURES & BENEFITS

- Simple and reliable
- Adjustable impact rating
- Side and front monitoring
- Direct fit with speed limiter
- 12V or 24V applications
- Small forklift applications
- Helps to reduce forklift damage
- Influences safer operator behaviour
- Active impact warning
- Improves workplace safety
