

SMARTRACK LICENCE

No Licence, No Drive!

The **Muirhead®** SmarTrack Licence system is designed to prevent unauthorised use of mobile equipment by unlicensed operators. The software driven system is used to manage operator access levels and fleet security via a pin code or swipe card. Under the SmarTrack licence system, only authorised operators with a valid pin code or swipe card can operate a protected machine.

Each protected machine is immobilised, isolating both the ignition and starter motor circuit to ensure that the machine is not continually cranked when an invalid pin code or swipe card is used.

The system is pre-programmed with the relevant pin code or swipe card access allowing only the assigned authorised personnel to operate the machine. The **Muirhead®** SmarTrack Licence system is a simple, cost effective and reliable way to prevent unauthorised access to mobile machines.

Part No. 5928	SmarTrack Licence kit
Part No. 5931	SmarTrack Licence controller
Part No. 7500	Keypad
Part No. 3768	Swipecard reader HID
Part No. 6826	Swipecard HID
Part No. 5895	Loom

FEATURES & BENEFITS

- Software driven system
- Capable of storing 20 licence groups and an unlimited number of operators
- Audible & visual indication
- Modular robust design
- Supply voltage 12-24 Volt DC
- Relay outputs 10 Amps
- Enables the management of operator access levels
- Increases fleet security
- Protects against unauthorised use
- User friendly
- Universal applications
