

UNIVERSAL ENGINE CONTROL SYSTEMS

The **Muirhead®** Universal Engine Control systems have been designed to monitor and control critical engine functions on stationary machinery, generators, marine vessels and industrial equipment.

The systems are simple in design, with an inbuilt **Muirhead®** Engine Protection system and standard operating controls. On fault detection the systems can be set to either alarm only (audible and visual) or alarm and shutdown the engine. The systems can be customised to your individual requirements.

FEATURES & BENEFITS

- Four function engine protection
- System test function
- Key start/stop
- 12V or 24V systems
- Alternator warning light
- Circuit protection
- IP65 enclosure
- Engine hourmeter
- Rubber insulated mounts

OPTIONAL FEATURES

- Engine temperature gauge
- Oil pressure gauge
- Shutdown override
- Wiring harness
- Glow plug control
- Mounting bracket

**Part No. 1041**

Universal engine control system

**Part No. 1045**

Universal engine control system

With optional engine temperature & oil pressure gauge
